

COMPANY POLICY

Document ref: **OJD-POL-02**Issue date: **14 November 2022**Review cycle: **Annual**

Environmental Policy

1. Policy statement

OJD Services Limited recognises that hiring heavy plant has an environmental footprint — and that much of our fleet exists precisely to reduce one. Our shredders and material handlers help customers recover value from waste and divert material from landfill. We are committed to preventing pollution, complying with all applicable environmental legislation and continually improving our environmental performance, working in the spirit of ISO 14001.

2. Equipment for the circular economy

- TANA Shark slow-speed shredders reduce mixed and bulky waste — wood, plastics, tyres and MSW — to a controlled particle size ready for recovery.
- The Doppstadt Inventhor 6 processes wood, green waste, compost and commercial & construction waste for recycling.
- Fuchs material handlers sort and load scrap and recyclables efficiently in recycling yards and transfer stations.
- The shared-fleet hire model itself keeps high-value machines in constant productive use, cutting the embodied carbon of idle equipment.

3. Emissions, fuel and resources

We prioritise modern, low-emission machines, specifying EU Stage V engines wherever available. We promote efficient operation and sensible idling practices, plan transport movements to minimise road miles, and support the use of approved lower-carbon fuels such as HVO where suitable for the machine and application.

4. Waste, oils and spill control

Our own waste streams — oils, filters, batteries, tyres and workshop consumables — are segregated and disposed of through licensed carriers under the waste duty of care. Machines are supplied well-maintained to minimise leak risk, and we support hirers in applying spill-prevention good practice, including the use of drip trays and spill kits during refuelling.

5. Continual improvement

We set practical objectives to reduce our impact year on year, monitor our performance against them, and review this policy at least annually. Every employee is expected to work in accordance with this policy, and we

welcome feedback from customers and partners on how we can do better.
